

Have you considered creating great looking studio photos for loved ones or yourself?
Got an upcoming occasion such as a baby's birthday, graduation, or have you recently been engaged?

I'm, [Zhi](#), your local photographer and I would love to create [quality studio portraits](#) for you.

Choose to purchase high resolution digital images straight out of camera immediately after the shoot, or for a little extra, get your images professionally edited.

All delivered photos are suitable for printing up to A2.

Straight out of camera studio photos look stunning - they cost \$30. Pick as many or as little as you like. Edited photos are \$40 - make your pictures look even better with light dodging and burning (darkening or lightening parts of the image), and colour correction.
